RESEARCH FIELDS

Environmental and energy economics, public economics, applied microeconometrics, policy evaluation
Focus: household decarbonization policy; distributional and efficiency effects of policy mixes

EDUCATION

Utrecht University School of Economics
PhD in Economics — 2022 – present
Dissertation: *Climate policy design for household decarbonization*
Supervisors: Inge van den Bijgaart and Jacob A. Jordaan

University of Turin
MSc in Environmental Economics, *110/110 cum laude* — 2018 – 2021

Sapienza University of Rome
BSc in Economics — 2015 – 2018

Summer schools

Quantitative Methods for Public Policy Evaluation — Jul 2026
Barcelona School of Economics · A. Glitz and S. Jiménez-Martín

Empirical Environmental and Energy Economics — Aug 2023
Tilburg University · H. Allcott

RESEARCH VISITS

Potsdam Institute for Climate Impact Research & TU Berlin
Visiting Researcher, host: Linus Mattauch — Sep – Oct 2025

RESEARCH

Publications

Unsustainable global freshwater consumption driven by economic growth
with V. Frontuto, S. Dalmazzone, B. Falsetti, R. Ignaccolo, F. Laio and M. M. Bagliani
World Development, 196, 107185, 2025

Is there an Animal Food Kuznets Curve, and does it matter?
with V. Frontuto, V. Andreoli, M. M. Bagliani and A. Corsi
Bio-based and Applied Economics, 1–34, 2024 · *Best Paper Award 2025*

Working papers

Economic Exposure and Climate Policy Support
with I. van den Bijgaart and J. A. Jordaan
CESifo Working Paper, 2026

Work in progress

Can Regressive Green Subsidies Be Justified by Abatement and Efficiency?
with J. Keuzenkamp

Relieving Credit Constraints in the Energy Transition: Adoption and Welfare
with I. van den Bijgaart and L. Sileci

Bringing Animal Welfare into Policy Evaluation
with S. Thewissen

PRESENTATIONS

Dutch Economics Day; Urbino Workshop on Applied Environmental and Climate Change Economics; Mannheim Conference on Energy and the Environment; PBL Netherlands Environmental Assessment Agency; TNO; University of Turin — 2026

EAERE Annual Conference, Bergen; Dutch Environmental and Resource Economics Day (DEARE), Wageningen — 2025

TEACHING

Utrecht University School of Economics

Econometrics ECB2METRIE	2026 – present
Intermediate Macroeconomics: Growth and Sustainability ECB2VMAE	2023 – present
PPE: Macroeconomics PP2V18001	2022 – 2025
Intermediate Macroeconomics: International Money ECB2IMAE	2022 – 2023
Regulating Markets USG6210	2022 – 2023
University Teaching Qualification (UTQ/BKO), in progress	expected 2027

Guest lectures

"Climate Policies for Household Decarbonization", *University of Turin*	Apr 2026
"The Economics of Climate Change", *University College Utrecht*	Nov 2024, 2025
"Climate Change, Economics and Regulatory Policies", *Università degli Studi dell'Insubria*	Dec 2022

Supervision

10 Bachelor's theses in Applied Economics, Utrecht University — 2026

2 Master's theses (co-supervision)

AWARDS AND HONOURS

Best Paper Award, *Bio-based and Applied Economics*, for "Is there an Animal Food Kuznets Curve, and does it matter?" — 2025

Best MSc Thesis in Environmental Economics, University of Turin — 2021

PROFESSIONAL SERVICE

Ad hoc referee: *Food Policy* (2 reviews)

Co-organiser, workshop on household decarbonization with CBS microdata, Utrecht — Nov 2026

Co-organiser, Dutch Environmental and Resource Economics Day (DEARE), Utrecht — Feb 2024

PhD representative and member of the Social Safety Task Force, Utrecht University School of Economics

OUTREACH AND ENGAGEMENT

Policy advisor to a candidate, European Parliament elections — 2024

National organiser, Fridays for Future Italy and Turin
